PERMIT INFORMATION

NAME: STATEWIDE GENERAL PERMIT FOR STORM WATER DISCHARGES ASSOCIATED
WITH CONSTRUCTION ACTIVITIES UPDES PERMIT NO: UTRC00000

BACKGROUND

The General Permit for Storm Water Discharges Associated with Construction Activities has been initially issued and subsequently re-issued since October 1992. The permit has been revised and renewed approximately every 5 years since that time. This is the next renewal for this ongoing permit activity. There are significant changes in this renewal, which reflect the 2012 EPA Construction Storm Water Permit as required. It includes federal requirements that by law must be included in the permit from 40 CFR 450 (Construction and Development Point Source Category).

PUBLIC COMMENTS

The permit is available for public review under "Public Participation" at www.waterquality.utah.gov/. Written public comments can be submitted to: Harry Campbell, Utah Water Quality Board, P.O. Box 144870, Salt Lake City, Utah 84114-4870 or by email at: hcampbell@utah.gov. The deadline to receive comments is by close of business on May 14, 2014. A public hearing may be held if written requests are received that demonstrate significant public interest and substantive issues exist to warrant holding a hearing. After considering public comment the Utah Water Quality Board may execute the permit or revise it.
